project settlement.

REPURPOSE

Our company mission
is to extend the
lifecycle of technology.

We offer customizable buyback services for any size organization.

We buy back many types of IT equipment, but
specialize in Chromebooks, Apple and Windows devices.

As an industry-leading partner, we take pride in a customer-focused
approach that is transparent, secure and environmentally responsible.

WHAT THE AEPA CONTRACT MEANS FOR YOU

- Confidence in working with a fully vetted, reputable buyback partner
- Avoiding the administrative hassles of a RFP or public surplus
- Optimizing the financial return value of your devices

Why Choose **TOTAL** TECHNOLOGY?

YOU HAVE ENOUGH UNCERTAINTY.
Selling back equipment doesn't need to add to it.

Our expertise, experience, and technology allow you to get a transparent, managed solution that creates a commitment you can take to the bank...or the board.

Schools of all sizes trust TOTAL TECHNOLOGY.

"The TOTAL value of resale topped \$2.6 million which was beyond our projected proceeds."

— Brady Johnson, Superintendent

"TOTAL offered the best value for our used devices which allowed us to send a solid budget to the board."

How TOTAL TECHNOLOGY can help.

YOUR CHALLENGE

We need a predictable buyback payout. Missing our refresh budget because our surplus devices were misquoted could be a disaster for us.

OUR SOLUTION

Our years of experience, combined with our proprietary data-driven pricing system, gives us the confidence that your devices are worth what we're quoting them at. Timely, easy and on-budget are our goals throughout the process.

YOUR CHALLENGE

We've got a mix of device types in our district and really don't want to work with multiple vendors for sell backs.

OUR SOLUTION

Total Technology purchases tens of thousands of Chromebooks, Apple and Windows devices each year. We are device agnostic when it comes to technology, allowing us to be your one-stop shop for device sell back.
