LAB SAFETY COURSES FOR TEACHERS

HIGH SCHOOL AND MIDDLE SCHOOL LABORATORY SAFETY COURSES FOR TEACHERS

The same injurious accidents occur in school science labs every year. Training is the key to breaking this cycle. Our Professional Learning courses present information and resources you can use to build or continue to foster a safety culture in your classroom, lab, school, and district. Topics may include common lab accidents, chemical treatment and disposal, chemical storage, basic toxicology, chemical labels and safety data sheets, the duty of care, and personal protective equipment.

- Professional learning can be delivered in person or virtually.
- Budget-friendly professional learning delivered by the leaders in lab safety.
- Safety audits available.

Contact Brad to discuss your customized district safety plan workshop.
