Transforming Facilities with Zero-Hassle, Federally Compliant Solutions

Secure Your Funding: Audits & Compliance for 2026 Infrastructure Upgrades

Securing the right funding is the first step toward modernizing your facility. We make the process seamless; align your lighting project with state and federal grants and rebates from start to finish.

Grant Access Made Easy: Success Stories from Texas Districts

Recently, IKIO partnered with multiple school districts across Texas to successfully secure lighting upgrade funding and complete energy-efficient installations. By streamlining the grant process and delivering compliant, high-performance systems, these districts unlocked substantial savings while modernizing their facilities for years ahead.

2026 Funding Alert: Get Proactive Support!

Don't wait until the last minute for 2026 funding. Grant availability can be sudden and state-specific.

We want to make your job easier. If you're interested in a future upgrade, let us know now. When relevant grants or funding programs become available in your state for 2026, IKIO will proactively reach out to you to offer expert guidance and support.

Stay prepared and be first in line when grants drop.

Catch IKIO Live This November!

IKIO is gearing up for exciting events this month, bringing smarter, sustainable lighting conversations to every stage.
