

IS YOUR FIELD GAME-READY?

BECAUSE PERFORMANCE DOESN'T
STOP WHEN THE LIGHTS TURN ON.

From practices to game nights — your lighting
defines how your field performs.

EVERY SCHOOL HAS THE SAME CHALLENGE

Athletic fields are some of the most used — and most
overlooked — spaces on campus.

When lighting falls short, it shows up immediately

- ✗ Poor visibility for players
- ✗ Inconsistent lighting across the field
- ✗ Safety concerns during games and events
- ✗ High maintenance with outdated systems

And it impacts more than just the game.

FRIDAY NIGHT. FULL STANDS. BIG GAME.

THE FIELD IS SET.
THE CROWD IS READY.

BUT THE LIGHTING?

It's either elevating the
moment or holding it back.

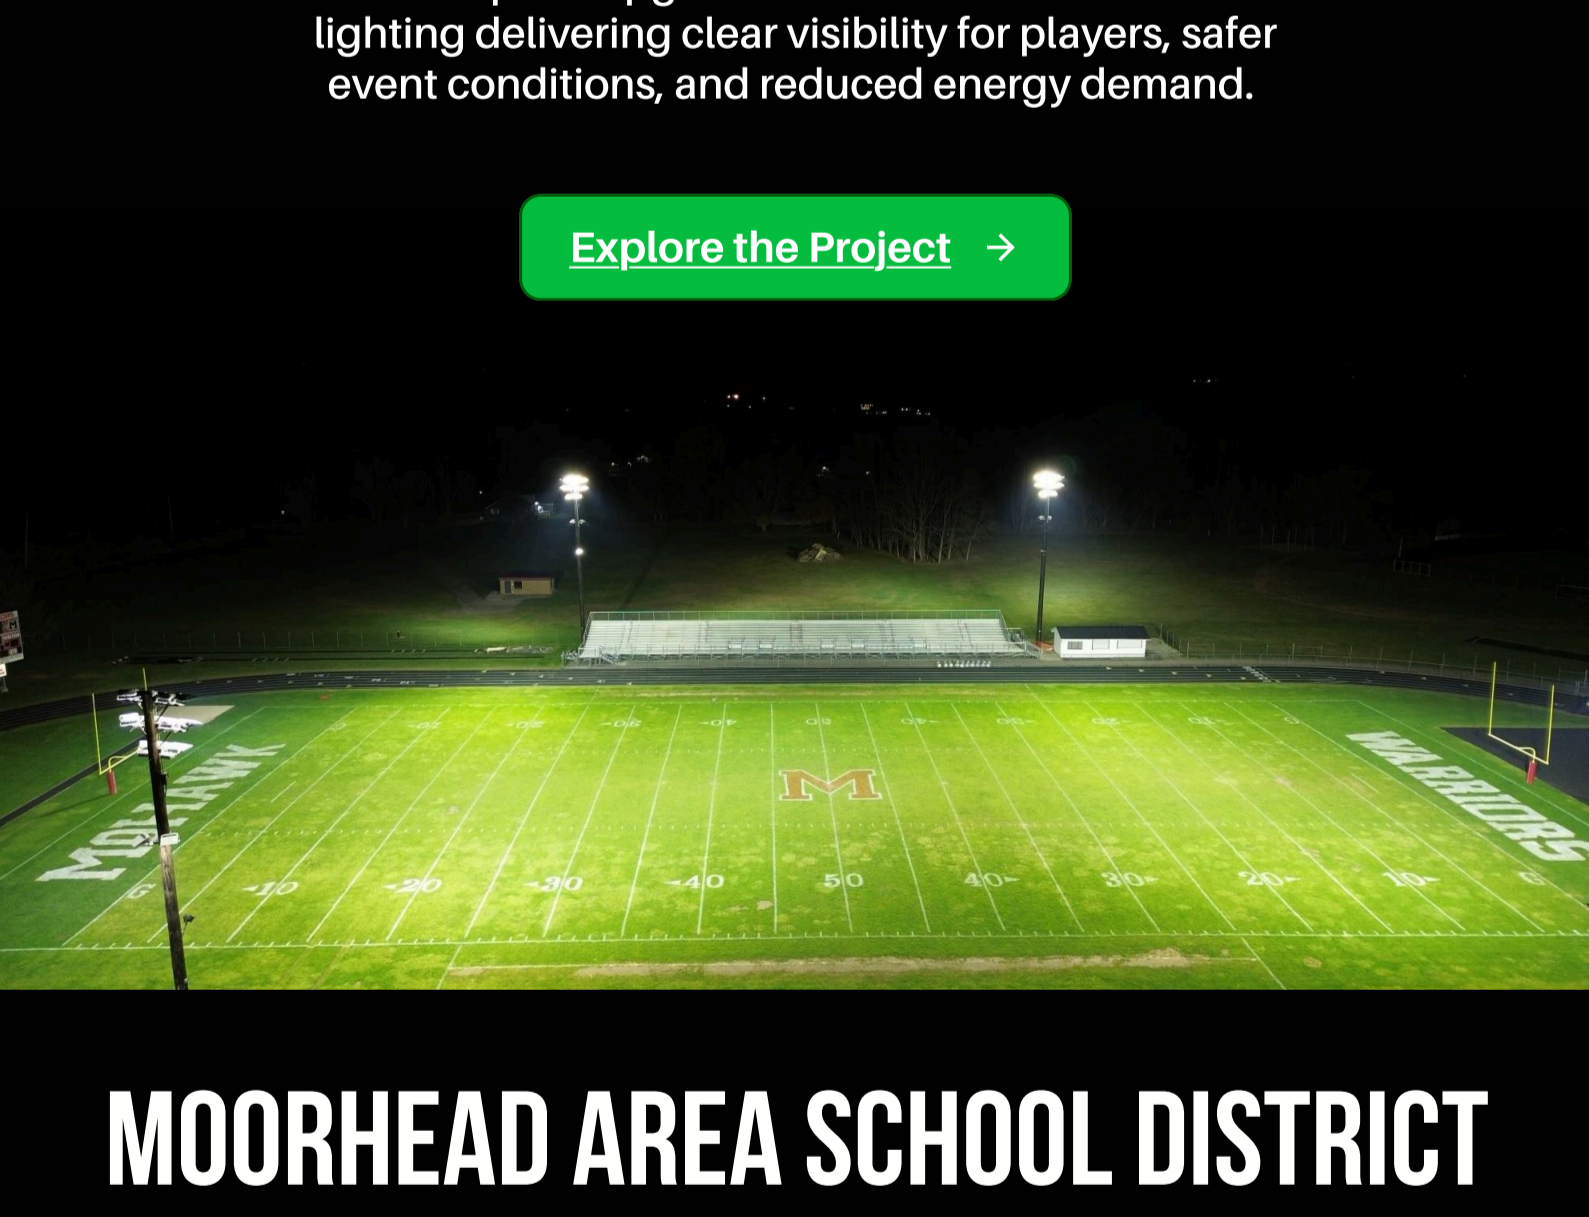

SCHOOLS ARE RAISING THE STANDARD FOR GAME-DAY EXPERIENCE

NOT JUST FOR VISIBILITY
BUT FOR PERFORMANCE,
SAFETY, AND PRIDE.

Forward thinking schools are

- ✓ Upgrading athletic lighting for consistent field performance
- ✓ Improving visibility for players, staff, and spectators
- ✓ Reducing maintenance disruptions during peak seasons
- ✓ Planning improvements ahead of funding cycles

BUILT FOR ATHLETIC & OUTDOOR PERFORMANCE

IKIO Supports Schools With

- ✓ Athletic field lighting assessment
- ✓ Performance focused upgrade planning
- ✓ Funding & compliance alignment
- ✓ Turnkey athletic lighting solutions

Designed For Real Game Conditions
Not Just Specifications.

ATHLETIC LIGHTING UPGRADES IN ACTION

Schools are upgrading their fields to
improve performance, visibility, and overall
experience during practices and events.

MOHAWK HIGH SCHOOL FOOTBALL FIELD TRANSFORMATION

A complete upgrade to modern LED athletic
lighting delivering clear visibility for players, safer
event deliveries, and reduced energy demand.

WHAT THIS MEANS FOR SCHOOLS

Athletic lighting is no longer just functional
it's part of how schools elevate performance, safety, and
community experience after hours.

IS YOUR FIELD READY FOR THE NEXT SEASON?

The best upgrades happen before the
season begins — not during it.

IKIO Helps Schools

- ✓ Evaluate current field lighting performance
- ✓ Identify upgrade opportunities
- ✓ Align projects with available funding
- ✓ Prepare early for compliance and approvals
